

FucoSan - from Science to Innovation Day 2019

Tuesday, 26 November 2019, 9.00 – 18.15 h

GEOMAR Helmholtz Centre for Ocean Research Kiel

What opportunities and challenges do algae offer as the raw material of the future? To discuss this question, the GEOMAR Helmholtz Centre for Ocean Research Kiel invites all project partners and stakeholders from research and industry to the “FucoSan – from Science to Innovation Day 2019” in Kiel. The aim of the international event is an exchange of the research findings so far within the project.

Frédéric Chaubet, University of Paris XIII, Laboratory for Vascular Translational Science, will start with a keynote lecture. The partners of the FucoSan project will hold presentations on the following topics:

- challenges and success stories in obtaining algal raw material in sustainable ways
- results from different fucoïdan extraction techniques
- chemical and biological characteristics of fucoïdians
- applications of fucoïdan in various economic fields
- insights into commercialisation potential related to fucoïdians

After the event you will have the opportunity to visit the GEOMAR Technology & Logistics Centre (TLZ) located on the east shore Campus of GEOMAR, Wischhofstraße 1-3, 24148 Kiel.

[Download the detailed programme here.](#)

To the project website: www.fucosan.eu/en/

Deadline for the registration for the event is 15 October 2019.

Participants are cordially invited to present their own research during the poster session. Please indicate if you are interested to present a poster when you apply for the event. You will then receive a form via e-mail to hand in your abstract and a description of the poster. There will only be a limited number of posters, so register as soon as possible. Deadline for the abstracts is **1 October 2019**.

We are looking forward to a productive meeting!
